

## Hot Stamping machine for small products

### Other Important Features:

- 1) Pneumatics from Pneumax.
- 2) PLC and HMI for DELTA electronics.
- 3) PID Temperature controller
- 4) X, Y table for easy registration.
- 5) Heavy base table ( Optional)
- 6) Very low maintenance.
- 7) Easy to operate with HMI settings
- 8) Input / Output list on HMI
- 9) Adjustable Height as per product.

### Other Pad Printing Machines:

- 1) Manual Hot stamping machine.
- 2) Hot stamping machine with index table.
- 3) Heat Transfer machine.
- 4) Custom made hot stamping machine.

Machine	Pneumatic Hot Stamping Machine
Operation	Pneumatic Operation
Base Plate Size	200mm x 250mm x 10mm
Max Stamping Area	75mm x 120mm
Stamping Stroke	50mm With micro Adjustemt
X andY Registration Table	Available
Foil Feeding	By Motor
Power Requirement	230V 5 A 50 Hz Single phase.
Power Consumption	0.5 kW- 2 Kw
Machine size	250 mm x350mm x 400mm
Weight of the Machine	70 Kg. Net.
